

EaP GREEN

Partnership for Environment and Growth

Programme carried out with the financial assistance of the European Union

Better Enterprises – Cleaner Environment - Green Economy

**National Conference on Resource Efficient and Cleaner Production (RECP)
for Manufacturing Sector in Belarus**

Minsk, 25th of May 2015, 14:00 – 17:00

The European Commission has established EaP GREEN, a Partnership for Environment and Growth that supports the Government of Belarus and other members of the Eastern Partnership to start the transformation to a green economy. Within the framework of EaP GREEN the United Nations Industrial Development Organization (UNIDO) implements a Resource Efficient and Cleaner Production (RECP) Programme in Belarus.

RECP is a globally proven approach to improve productivity and reduce environmental impacts of enterprises. This is good for business, the environment and climate, and indeed economy and society at large. A first set of RECP demonstrations has been completed in five companies in Belarus. The results and experiences will be presented during a national conference on 25th of May 2015.
